Situated at just 400m from the Monte Gordo beach, in the Algarve's Southeast (Sotavento Algarvio), The Prime Energize is a 4-star hotel with 5 floors resulting from the renovation of a building from the 80's. Led by Saraiva + Associados architects, the region's natural elements and neutral colours not only played a relevant role in the architectural project, but also in the interior design conceived by the internationally acclaimed designer Nini Andrade Silva, who took inspiration from Algarve's dunes and cliffs to create an atmosphere which entices one to pure rest.

ROOMS ARE SPACIOUS, MINIMALIST, ELEGANT AND COMFORTABLE

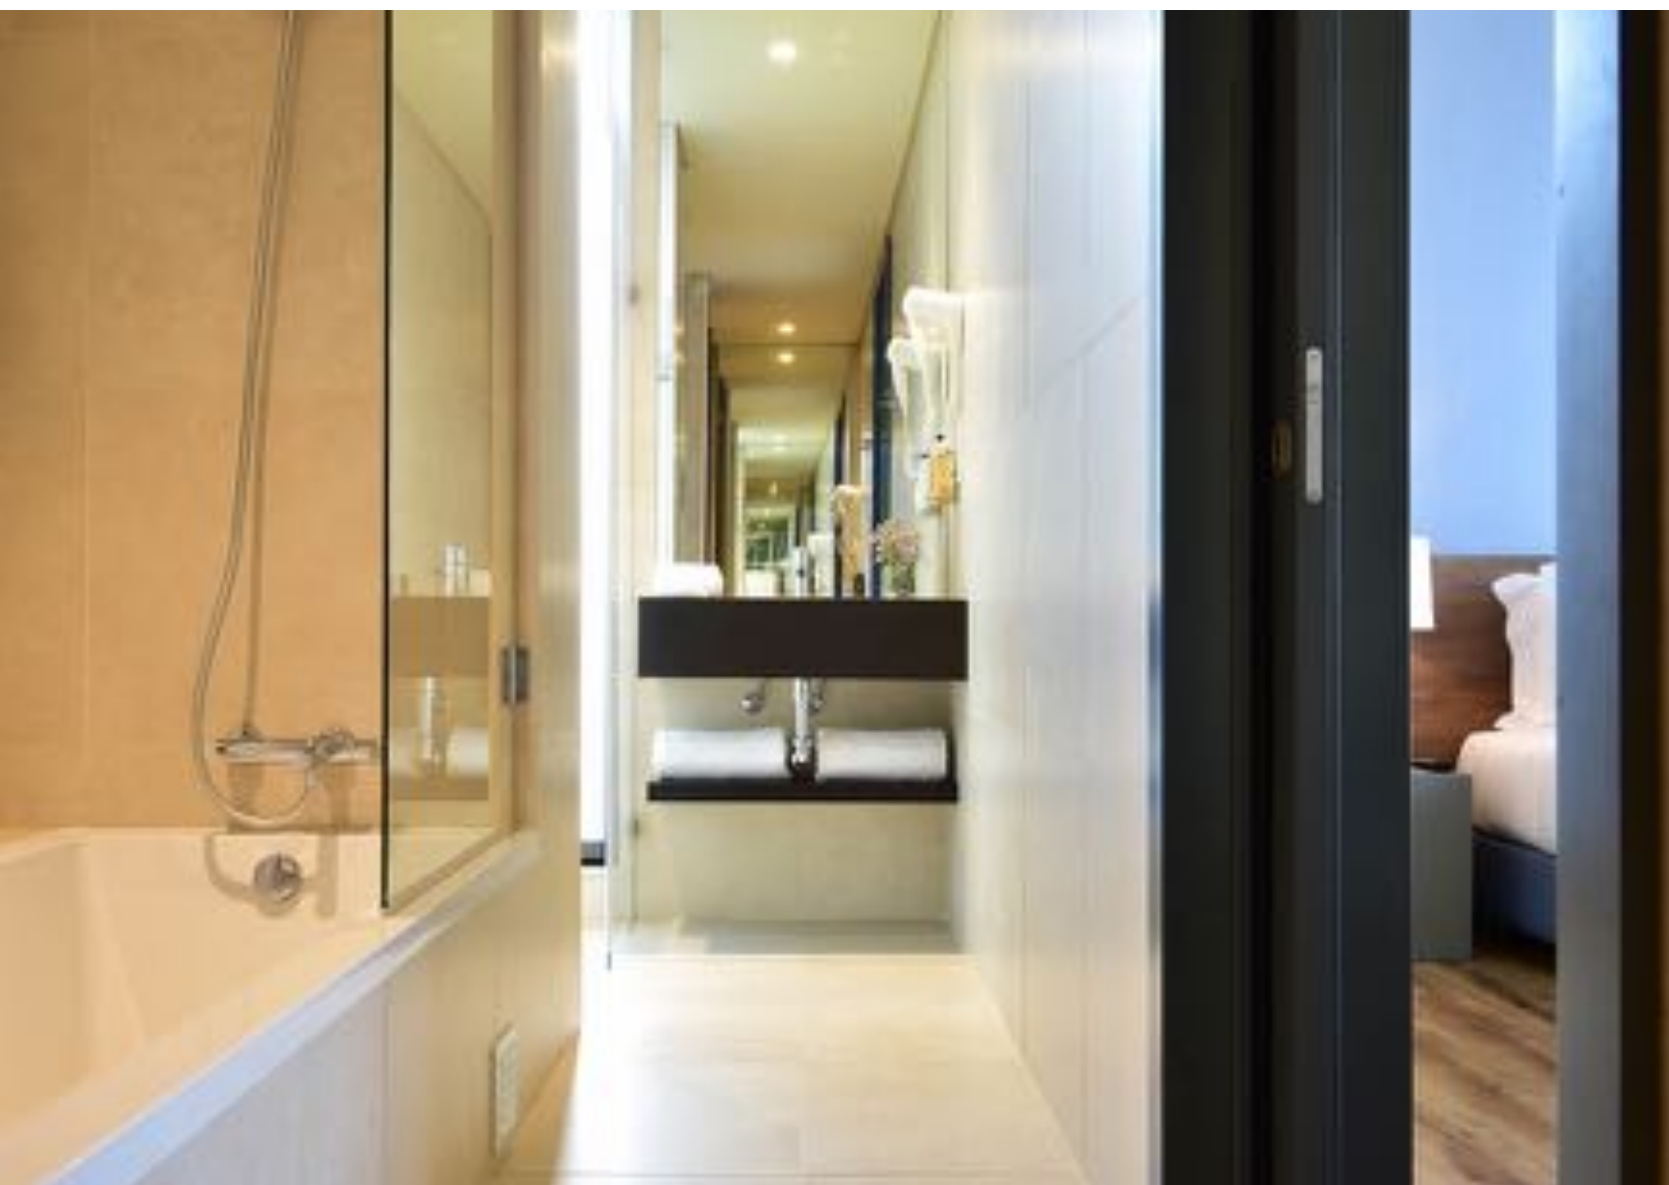

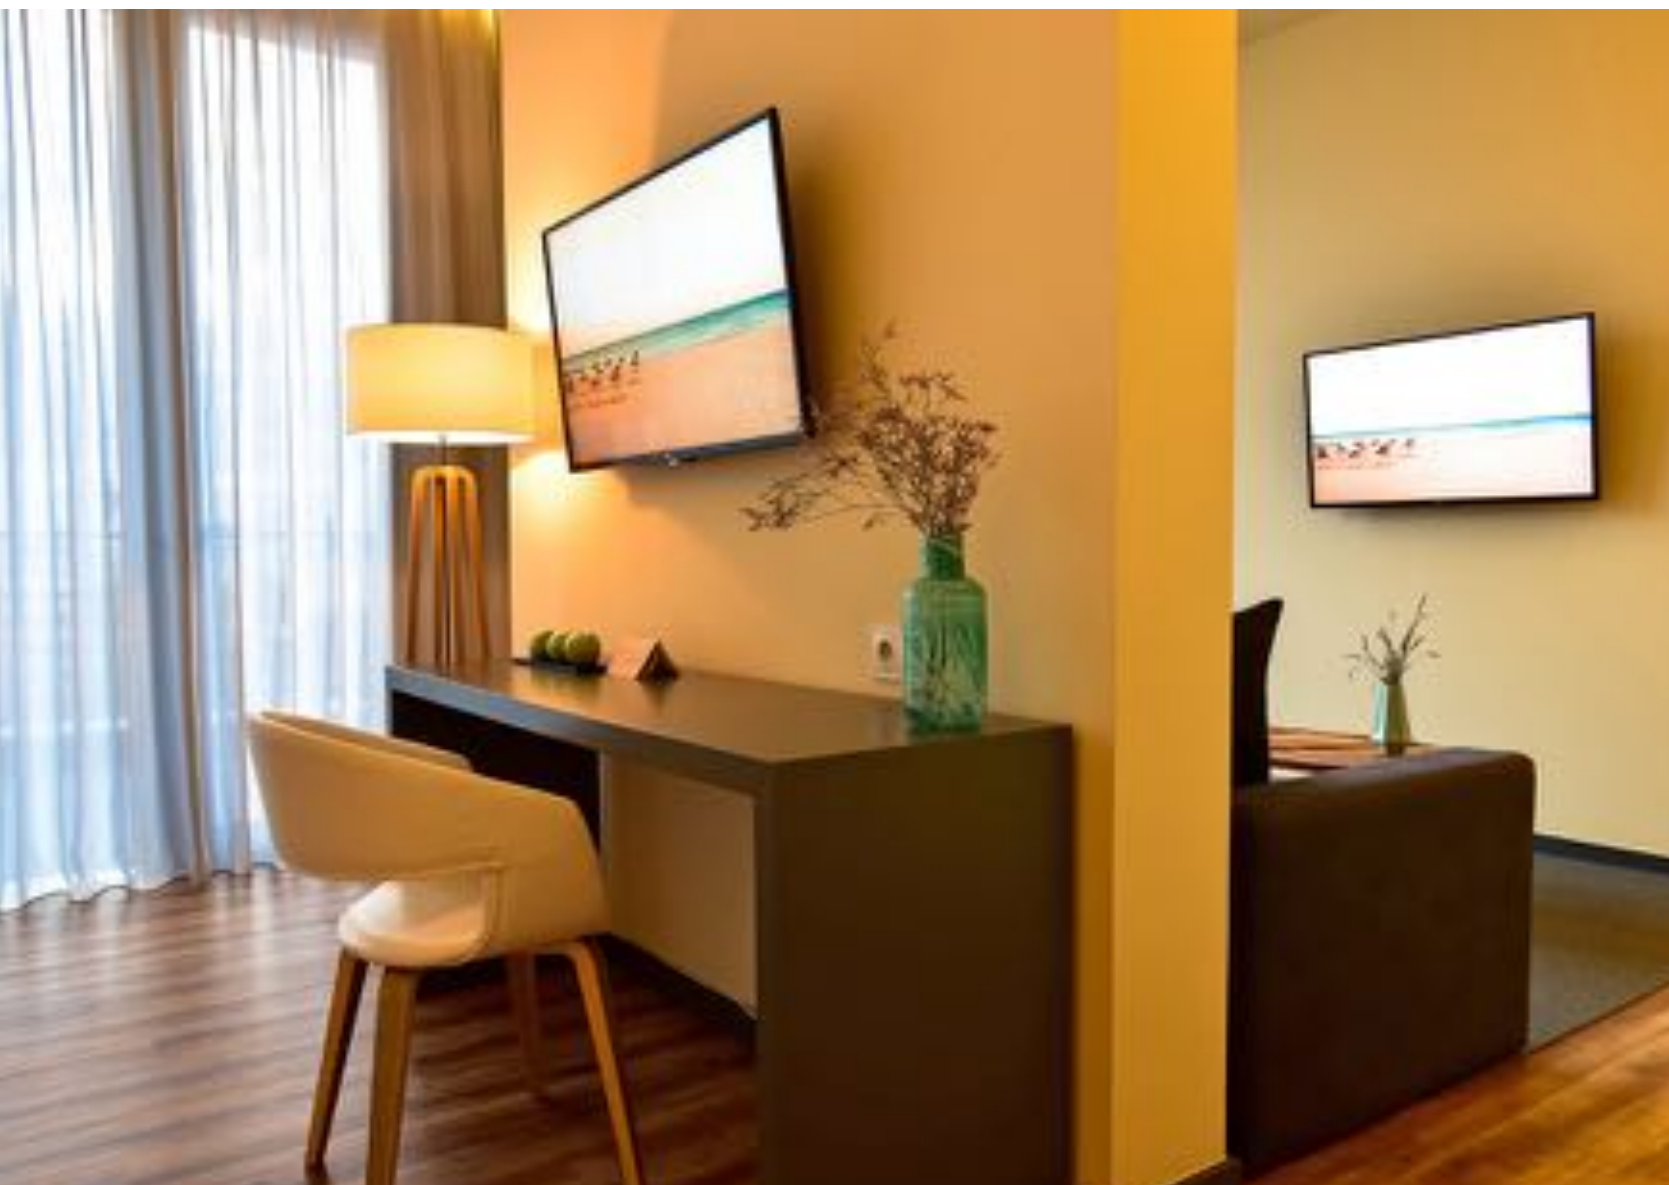

The soft, neutral colours that have been used are soothing and calming, inviting one for long naps and repairing night sleep. Renowned for its soft, long lasting scents, the option to use amenities by Rituals is intimately connected with the brand's purpose: to offer experiences of wellbeing and to care for the environment.

#sleepwell

Once you enter your bedroom, you will find a menu of pillows and also a little notebook where you can write down a few positive, thankful phrases, thus developing a constructive attitude for the coming days' challenges.

You can also prepare a soothing herbal tea, which will surely help you for a good, long night's sleep.
